Our Story

Established with 4 founders during Fall 2019

Welcomed class of 15 consultants in Spring 2020

Partnering with top-tier consulting firms and experts

Providing services to 5 local nonprofits and social entrepreneurs

Where will YOU fit into our story?

180 Degrees helps transform organizations

"Why are we called 180 Degrees? It's because we work to turn good organizations into great organizations, challenges into opportunities, ideas into reality. We're focused on positive transformation. Transforming organizations, and – in turn – transforming lives." – Nat Ware (Founder & CEO)

What is social impact?

"Social impact can be defined as the net effect of an activity on a community and the well-being of individuals and families." – Centre for Social Impact (CSI)

"A significant, positive change that addresses a pressing social challenge." – Michigan Ross Center for Social Impact

"Social impact is the effect an organization's actions have on the well being of the community." – Knowledge at Wharton High School

8 Members in Fraternities/Sororities

3 Student Athletes

Where Our Members Work (and many more)

J.P.Morgan

Project Example: Ruach Bicycle Club

We are a part of 180 Degrees Consulting CMU Chapter. We are a probono consulting organization aiming to provide help to local NGOs.

Yuxi Shi, Freddie Dean, Isha Patel, Leanne Phillips, Shifali Kerudi

ABOUT

Ruach Bicycle Club was founded by Mike White in 2017. The Ruach Bicycle Club focuses on science. technology, engineering, art, math, and bikes. The club members, which consist of elementary, middle, and high school students, learn bike science, health, mechanics and how to disassemble and reassemble bikes. The goal of Ruach Bicycle Club is to build confidence and help nurture problem solving skills along with making science and math relevant.

THE PROBLEM

We are trying to boost Ruach's online presence in order to encourage more donations and increase the organization's membership.

We also want to increase the number of volunteers and digitize some of the club's processes, such as the member application.

The stakeholders involved in this problem include the members of the club, the current volunteers, and the club founders.

OUR SOLUTION

The solutions to increase the volunteer count include adding the club to several volunteer websites, creating a volunteer page on the club website, and adding the opportunities to newsletters/newspapers.

To ease the process of applications, we have digitized both the application form and the waiver so that Ruach Bike Club is able to keep track of new members.

PROGRESS

We have created a guide to help Ruach revamp its website and boost its online presence. We are also supporting the development of Ruach's accompanying Cafe by more closely integrating Ruach's brand values into its new business model.

PARTNERS + CONTACTS

TIn terms of CMU organizations, we are partnering with Teknowledge, Project Ignite and Moneythink. These organizations all focus on educating students, so we know they will be great partners for Ruach.

Outside of CMU we have connected with local research-based startup BirdBrain Technologies. We are also currently in the process of communicating with engineers from Deeplocal and Uber, among other companies,

NEXT STEPS

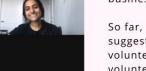

We have also connected Ruach with multiple organizations that will increase access for students to engineering education and role models. Through CMU's alumni network we have partnered with BirdBrain Technologies, which assists educators in bringing creative robotics and engineering design into the classroom. They will be supplying robotics kits and mentors for Ruach's summer programming.

We hope to support Ruach Bicycle Club's summer programming from June -August 2021 by providing additional funding for biking equipment and materials for STEM activities.

So far, we have created suggestions to update the volunteer page and made volunteer descriptions to add to third-party volunteer websites.

Project Example: Entrepreneurship Hub

About:

We consulted a community of innovators that helps entrepreneurs start and build their companies by offering free educational programming, mentorship, expert coaching, incubation, and a collaborative coworking space.

Goal:

- 1. Foster an inclusive culture (connect entrepreneurs rather than help them individually)
- 2. Improve company structure (Ex. method to track event attendance)
- 3. Create a more sustainable business model

Our Solution:

- 1. Start an affinity group to create a closer community, celebrate diversity, and promote involvement.
- 2. Revamp the coworking business model by hiring a Startup coach, and charging a flat membership and office space fee.
- Diversify revenue stream into foundational grants, crowdfunding, corporate & volunteer grants, and partnerships.

Our Training Program

Over an 8-week period under the mentorship of students who have experience in consulting and are going into the industry

180DC FAQs

Who can join 180DC?

• Any CMU student! Whether undergrad or masters, we accept all. We just ask that you are passionate and committed.

When will I be able to work on a nonprofit project if accepted?

• For student consultants this year, you will go through our formal training program throughout the semester and also be an "intern" on a project team

What is the time commitment?

- For new student consultants, we expect attendance on workshops and speaker events. As an organization, we have bi-weekly meetings for everyone to update each other on project progress and other activities.
- When on a project, what you put in is what you get out. We are working with a real client, so we expect you and your team to follow their deadlines on when deliverables should be met.

180DC Application FAQs

Do I need any consulting experience to be in 180DC?

• No you do not! We primarily look for passion for social impact and general problem solving skills. Through our formal training program, you will dive deeper into what consulting is and build your skills.

What will the interview process look like?

- One 20-30 minute behavioral (2 members : 1 applicant)
 - Behaviorals are basic interview questions ("tell me about yourself", "when was a time you worked on a team")
 - *highly recommend researching the STAR method when prepping for this interview
- One 45-60 minute group case interview
 - You will be paired with 4-5 other students and will be tasked on solving a hypothetical business situation concerning a social impact organization
 - *highly recommend researching what a general case interview looks like or reading Case in Point by Marc
 Cosentino

When will I hear back regarding my status with 180DC?

You will hear back by September 27!

180DC Application

- What is it about your background, experiences, or story that shapes your desire to be a part of the 180DC community?
- What does social impact mean to you?
- What issues inspire you to act? Select a company or NGO that is working towards solving this issue. Explain one challenge they are facing and propose a potential solution.
- Resume

WORK WITH US TO SCALE OUR IMPACT.
